- Before you create a grant application you must create a Professional Profile for the Principal Investigator who is named in the grant
Utilizing Professional Profiles

- Information stored in the Professional Profile is auto-filled into the grant proposal once that individual is named as a PI, Senior/Key Person or Authorized Representative

- Profiles stored in Cayuse424 can be shared with others and used multiple times

- After you create a profile for the PI you must then set up Professional Profiles for all Key Personnel and Other Significant Contributors named in the grant proposal if a profile has not already been created for them (this can be done after you create the proposal)

Validation and Error Tracking

- Cayuse424 keeps a running total of all errors and warnings.
- As you correct errors and warnings, the running total decreases.
- Errors are fatal. Any proposal that is submitted with errors will be rejected by Grants.gov or the granting agency.
- Warnings are not fatal; but be sure if you are submitting a proposal with warnings that you have determined the warning will not cause the proposal to be rejected or delayed by the granting agency.
- Any items labeled “Info” are just special pieces of information and advice that we believe might be useful to the application submission process.
Displaying Errors, Warnings and Info

1. Click the **Error/Warning/Info** button at the bottom of the proposal page to display details.

2. Click the hyperlink. Cayuse424 will display the page on which the Error/Warning occurs and highlight the field that contains the Error/Warning.
Proposal Lock Feature

- When you are working in a proposal, all other users who have permission to that proposal will see the lock icon [ ] adjacent to that proposal when they log-on to Cayuse424.
- The icon signifies that the proposal is locked.
- Only persons who you have been granted permission to “break-lock” can break your lock.
- Persons without the break-lock authority can still open up the proposal in read-only format; but they will not be able to enter data or add attachments.
Copy/Transform Proposal

- The Copy/Transform feature allows users to:
  - Create a duplicate copy of an existing proposal; or
  - Transform data from an existing proposal into a new grant proposal for a different opportunity

- Once copied or transformed the new proposal can be renamed, edited and submitted electronically to Grants.gov
How to Make a Copy of a Proposal

2. Click the **Copy/Transform** icon adjacent to the proposal
